

USED MACHINERY

Used machines from the W&H Group

Wide range of used machines

Used machines – our history and an important part of our present and future.

Knowing that machines from the W&H Group have a very long life, we have made it our business to buy used machines. The machines are completely overhauled by GARANT and are delivered with the same quality as the original manufacturer.

GARANT has a wide range of used machines and offers them at attractive conditions as an alternative to new machines.

Sustainable thinking and action is an important principle in protecting our environment and our resources. GARANT sees refurbishing machinery as one of its contributions to sustainability.

Your advantages

- ✓ Complete preparation of your GARANT/W&H machine individually tailored to your requirements
- ✓ Use of original spare parts
- ✓ Commissioning and inspection on site by GARANT specialists
- ✓ Your contribution to sustainability through reuse

GARANT prepares your used GARANT/W&H machine for a further life as a reliable system in your production process.
