

LONGSLIT 1006 | 1008

Slitter rewriter for film or paper

LONGSLIT 1006 | 1008

Slitter rewriter for film or paper

Format range

| | | |
|------------------------|-----------------|-------------------|
| Mother roll diameter | 1000 mm | 39.37" |
| Working width | 1000 mm–1600 mm | 39.37"– 62.99" |
| Minimum slitting width | 25 mm | 0.98" |
| Finished roll diameter | 600 mm/800 mm | 23.62"/ 31.50" |
| Speed | 450 m/min | 17716.54 inch/min |

Space requirements

| | | |
|--------|--------|---------|
| Length | 2.00 m | 78.74" |
| Width | 3.80 m | 149.61" |
| Height | 2.00 m | 78.74" |

Innovations

- Modern PLC Siemens S7 operator panel
- Recipe management
- Laser light controlled positioning of rewinding cores
- Friction ball supported rewinding

Optional equipment

- Shaftless unwind
- Hydraulic unloading device
- Electrical pusher for finished rolls
